About Us

Shubham Enterprises – Crafting India's Doors Since 1997

For over 25 years, we have been Central India's trusted name in wooden solutions. From a family-run venture to a modern enterprise, we have grown into one of the region's leading manufacturers of flush doors, laminated doors, veneered doors, plywood, and blockboards.

- Active in MP, CG and Delhi
- 2 state of the art manufacturing factories
- 100+ employees
- 2000+ clients served to date

Our Legacy & Core Values

Legacy of Trust

Over 25 years of dependable service in doors and wood solutions, trusted by builders and contractors across Central India.

Certified Quality

Doors manufactured under BIS and ISO systems, ensuring compliance with national standards at every stage.

Craftsmanship that Lasts

Every door reflects careful workmanship and fine detailing, combining strength with enduring visual appeal.

Sustainability at Heart

Made predominantly with recycled wood, reducing waste and creating eco-friendly products that last.

Partnership that Delivers

More than a supplier, we work alongside builders and architects to support their projects with reliable solutions.

Flush Doors

Durable, cost-effective, and widely trusted, our flush doors are built with premium cores for lasting strength and stability.

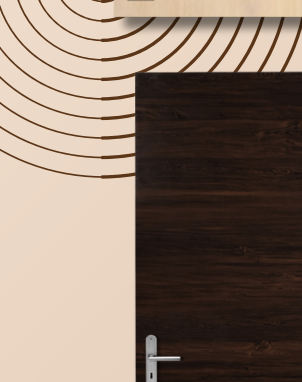

FEATURES:

- Available in MR, BWR, and BWP grades
- Affordable & long-lasting solution
- High load-bearing hardwood core
- Resistant to termites and borers

Note: The final product may differ from the product images displayed in this brochure.

A vertical rectangular panel with a dark brown wood grain texture, representing a teak veneer door. It has a black T-shaped handle on the left side.

Teak Veneer Doors

Natural teak veneers with engineered cores for timeless elegance and strength.

FEATURES:

- Premium teak & hardwood veneers
- Compatible with polish & PU finishes
- Combines aesthetics with durability

A vertical rectangular panel with a light-colored wood grain texture, representing a blockboard and plywood panel. It features several logos and text: 'IS - 303' with a logo, 'MAT PLY CONSTRUCTION' with a diamond logo, '100% GURJAN FACE' with a tree logo, 'TERMITE & BORER RESISTANT' with a termite logo, '25+ YEARS OF TRUST' with a star logo, and 'GAPLESS' with a logo. The word 'SHUBHAM' is repeated vertically on both sides.

Blockboard & Plywood

Strong, versatile panels that simplify interiors and furniture applications.

FEATURES:

- Blockboard: Lightweight, warp-resistant, easy to work with
- Plywood: Strong, smooth, and available in Commercial & BWR grades

Shuttering Plywood

High-strength, film-faced ply for smooth concrete casting and multiple reuses.

FEATURES:

- Superior bonding & load-bearing capacity
- Smooth surface for accurate casting
- Water & abrasion resistant

Premium Mesh Doors

Sturdy, stylish doors offering safety, ventilation, and lasting durability.

FEATURES:

- Strong hardwood frames with integrated mesh
- Available in multiple laminate finishes for varied looks
- Functional yet aesthetic

The Shubham Difference

HIGHLY DURABLE & STABLE

Premium core construction ensures slam-proof strength and long-lasting performance under heavy use.

TERMITE & BORER RESISTANT

Advanced treatment protects against termites, moisture, and fungi, ensuring worry-free durability.

HIGH LOAD BEARING

Uniform hardwood species provide strength and resistance to warping, cracking, and daily wear.

CUSTOM DIMENSIONS

Available in standard thicknesses (25–40mm) with tailored sizes for seamless installation.

PRECISION ENGINEERED

Strictly quality-checked to ensure durability, safety, and long-lasting aesthetics.

CERTIFICATIONS & STANDARDS

IS 2202 and ISO 9001 certified for strength, durability, and consistent quality.

CUSTOMIZATION OPTIONS

Wide range of finishes, colors, textures, and hardware to match project needs.

TURNKEY SOLUTIONS

For select projects: door, frame, hardware, and installation in a ready-to-use package.

GREEN CONSCIENCE

Made using mostly recycled wood, our doors reduce waste and support sustainable practices, offering eco-friendly solutions without compromising strength or durability.

SHUBHAM DOORS × GODREJ HARDWARE = RELIABILITY REDEFINED

Shubham's craftsmanship combined with Godrej's trusted hardware delivers secure, reliable door solutions.

Manufacturing Excellence

Our state-of-art facilities feature the latest technologies, rigorous quality checks, and eco-conscious practices. Every product is a result of meticulous engineering, premium raw materials, and modern design—delivering unmatched stability, finish, and long-term reliability.

The image shows the layered structure of a Shubham flush door. At the core is a tightly interlocked wood filler encased in solid wood framing for strength. This is topped with a core veneer, followed by a decorative surface—face veneer, teak veneer, or laminate. For laminate or teak models, this extra layer enhances water resistance and durability. All layers are bonded with specialized resin developed in-house, then hot pressed to ensure long lasting quality before the door proceeds to final finishing for Shubh Homes.
